EXPECTED CORE ADMINISTRATION SYSTEM IMPLEMENTATION

CarePartners of Connecticut continues to make significant investments to improve its technical infrastructure, including implementing a new core administration system to support claims processing.

CarePartners of Connecticut has developed a structured program to manage this expected system implementation, which is tentatively targeted for the 2021 plan year. As the go-live date approaches, CarePartners of Connecticut will provide further updates on the system migration and possible changes that may impact providers.

For questions regarding the system implementation, call Provider Services at 888.341.1508.

CORRECT CODING REMINDER

As a routine business practice, claims are subject to payment edits that are updated at regular intervals and are generally based on CMS (including the National Correct Coding Initiative [NCCI] edits), specialty society guidelines and drug manufacturers' package label inserts.

Procedure and diagnosis codes undergo periodic revision by CMS (including NCCI edits) and the AMA. As these revisions are made public, CarePartners of Connecticut will update its systems to reflect these changes.

Documentation is updated to reflect the addition and replacement of procedure codes where applicable.
